ABOUT FORTUMES

FORTUMES is an international trading company providing selected premium natural stone for architectural, interior and commercial projects worldwide.

Through direct cooperation with quarries and stone-processing manufacturers, we coordinate sourcing, material selection, processing, quality control and export delivery according to project requirements.

Our role is to align the right stone, finish, format and visual selection with the technical and commercial requirements of each project.

01 CURATED SOURCING

Selected materials from established quarry and manufacturing networks.

02 PROJECT-BASED SUPPLY

Solutions tailored to required dimensions, finishes, quantities and applications.

03 EXPORT COORDINATION

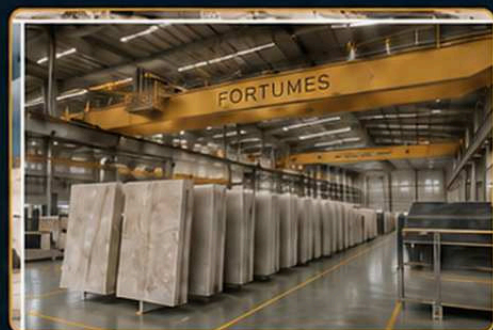

Packing, inspection and international delivery support from order to shipment.

DIRECT ACCESS TO QUARRIES AND MANUFACTURERS

FORTUMES works through direct cooperation with quarries and stone-processing manufacturers across Iran. This network enables us to coordinate sourcing, material selection, processing, quality control and export preparation according to the requirements of each project.

01 QUARRY ACCESS

Access to multiple quarry regions and a broad selection of Iranian natural stones.

02 MATERIAL SELECTION

Coordination of blocks, slabs, shade ranges, veining and visual matching.

03 PROCESSING COORDINATION

Cutting, finishing, sizing and project-specific production requirements.

04 QUALITY & EXPORT CONTROL

Inspection, packing and shipment coordination before international delivery.

One point of contact from material selection to international delivery.

WHY PREMIUM NATURAL STONE

01 WIDE COLOR PALETTE

From white and warm cream to gray, beige, pink, green, brown, black and multicolored varieties.

02 DISTINCTIVE DECORATIVE STONES

Travertine, onyx, marble and limestone with distinctive veining, translucency and natural character.

03 CONSISTENT MATERIAL AVAILABILITY

Established quarry sources support continuity across selected natural stone categories.

04 COMPETITIVE COMMERCIAL VALUE

A strong balance of visual quality, performance and commercial value for international projects.

05 VERSATILE FINISH OPTIONS

Available finishes include polished, honed, brushed, leathered, sandblasted and bush-hammered surfaces.

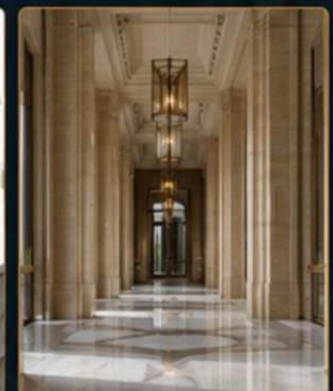

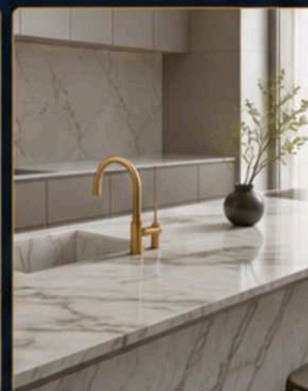

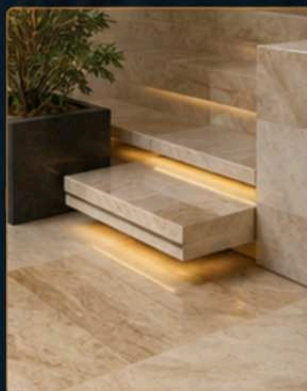

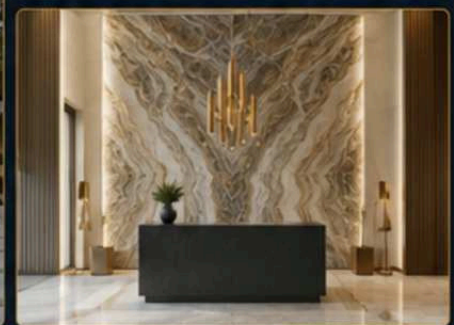

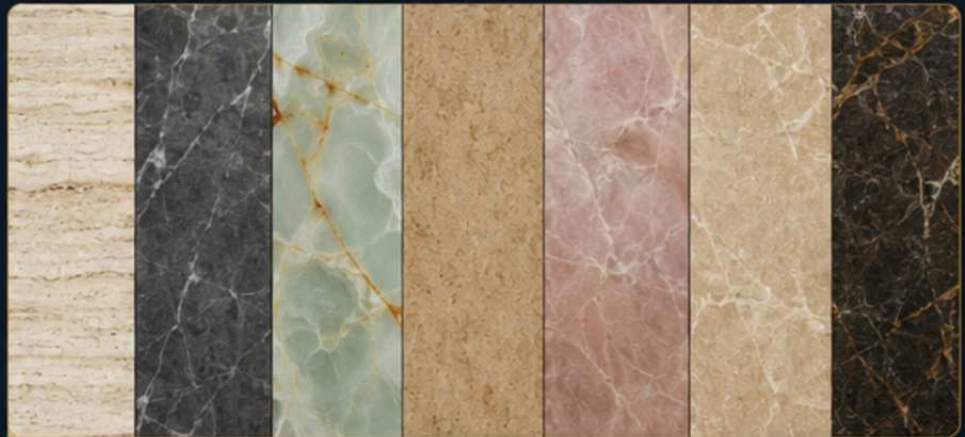

06 CUSTOM FABRICATION

Slabs, tiles, cut-to-size pieces, stair treads, wall cladding, countertops and project-specific fabrication.

07 WIDE APPLICATION RANGE

Suitable for facades, flooring, interiors, hospitality, residential and commercial applications.

Natural beauty. Material versatility. Global applications.

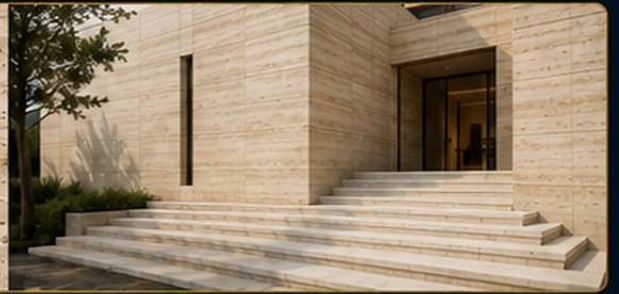

COLLECTION OVERVIEW

OUR STONE COLLECTION

A curated overview of five core natural stone categories supplied by FORTUMES for architecture, interiors and global projects.

TRAVERTINE

Layered natural texture for facades, wall cladding and architectural detailing.

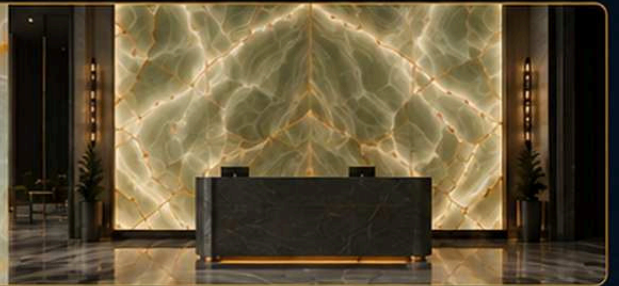

MARBLE

Elegant veining and refined finishes for premium interiors.

ONYX

Translucent decorative stone for bookmatched and backlit feature installations.

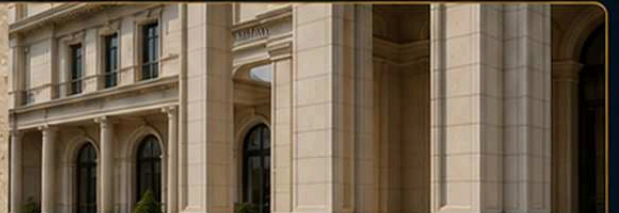

GRANITE

High-strength material for exterior applications and demanding surfaces.

LIMESTONE

Subtle, uniform tones for timeless architecture and custom detailing.

NATURAL STONE GUIDE

This guide helps you understand the key information provided for each stone in our collection.

These characteristics ensure transparency and help you choose the perfect natural stone for your project.

STONE TYPE

The geological type of the stone (travertine, marble, onyx, granite, limestone, etc.).

AVAILABLE FORMATS

Standard block sizes and slab/tile dimensions that can be supplied.

ORIGIN

Source and quarry details are provided on request for confirmed orders extracted.

APPLICATIONS

Recommended areas of use for interior and exterior applications.

COLOR & APPEARANCE

The dominant colors, patterns, and visual characteristics that define the stone's unique look.

TRANSLUCENCY

The level of light penetration in the stone (opaque, semi-translucent, translucent).

CUTTING DIRECTION

The recommended cutting direction to achieve optimal veining continuity and strength.

NATURAL VARIATIONS

The degree of variation in color, veins and texture from piece to piece — a hallmark of natural stone.

AVAILABLE FINISHES

The surface finishes available for this stone (polished, honed, brushed, sandblasted, etc.).

SIGNATURE PREMIUM STONES

Nature is home to some of the world's most beautiful and unique natural stones. Each stone in this collection reflects millions of years of natural history and the craftsmanship of our people.

From timeless classics to rare and distinctive stones, our selection brings elegance, strength, and authenticity to architectural and interior spaces around the world.

On request

COLOR

Beige

STONE TYPE

Limestone

KEY STRENGTHS

Homogeneous Texture,
Classical Architecture,
Carving, Columns,
Cornices, Façade Elements,
Custom Pieces by Drawings

APPLICATIONS

Façades, Classical
Buildings, Columns,
Cornices, Exterior
Details, Architectural
Elements

AVAILABLE FORMATS

1. QUARRY BLOCKS

2. GANGSAW SLABS

3. CUTTER SLABS

4. STANDARD TILES

5. CUT-TO-SIZE

6. STEPS AND RISERS

7. WALL CLADDING

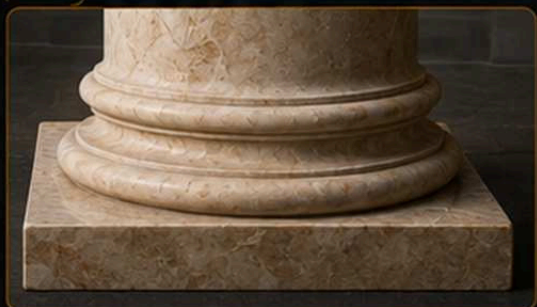

8. COUNTERTOPS

9. WINDOW SILLS

10. ARCHITECTURAL ELEMENTS

11. CUSTOM-MADE PRODUCTS

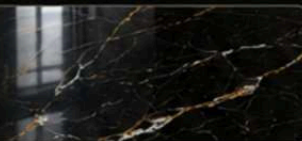

Available in standard and custom dimensions. Sizes, thicknesses and finishes are produced according to project requirements and technical feasibility.

SURFACE FINISHES

Available finishing options for natural stone vary by material, application, and intended performance.

1. Polished

7. Tumbled

2. Honed

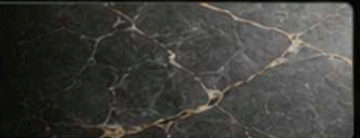

8. Antique

3. Brushed

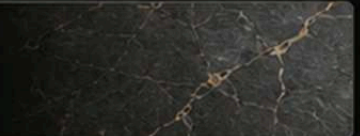

9. Filled and Polished

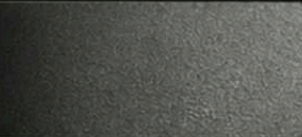

4. Leathered

10. Unfilled

5. Sandblasted

11. Flamed

6. Bush-Hammered

12. Waterjet Finish

Not every finish is suitable for every stone.
Applicable finishes are specified individually for each material.

AESTHETIC DIVERSITY

Enhance natural beauty with the right finish.

PERFORMANCE DRIVEN

Choose finishes suited to function and durability.

APPLICATION FLEXIBILITY

Ideal for interiors, exteriors, and special projects.

EXPERT RECOMMENDATION

Our team guides you to the best finish for your project.

PREMIUM QUALITY

Finishes executed with precision and care.

CUTTING & PATTERN SELECTION

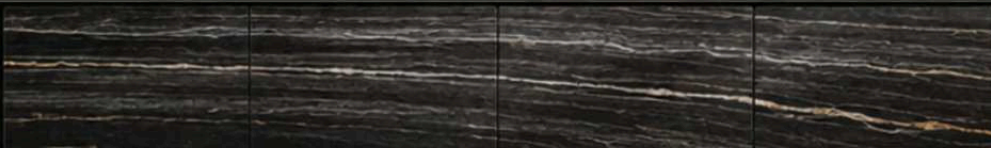

Cutting direction and slab selection define the final visual effect of natural stone applications.

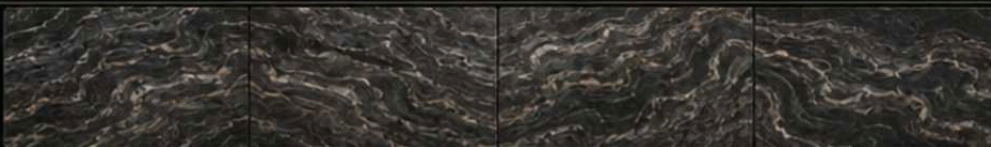

1. Vein Cut

Cuts parallel to the vein for linear, flowing movement.

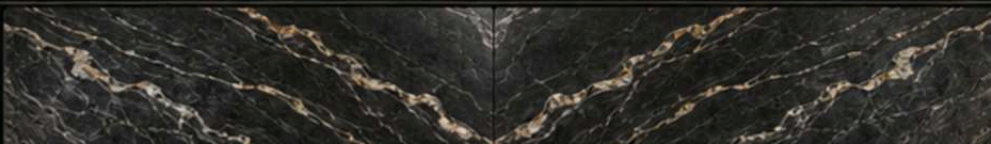

2. Cross Cut

Cuts perpendicular to the vein for cloud-like or layered patterns.

3. Bookmatch

Two adjacent slabs mirrored to create a continuous pattern.

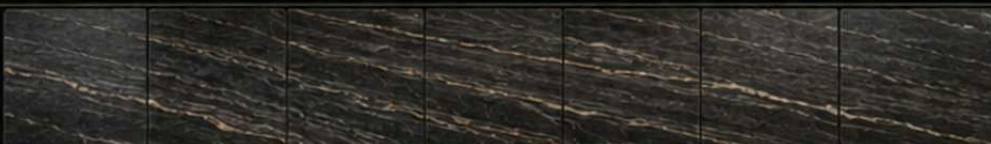

4. Four-Way Bookmatch

Four slabs mirrored in both directions for a striking, symmetrical design.

5. Sequential Slab Selection

Slabs arranged in sequence for natural flow and continuity.

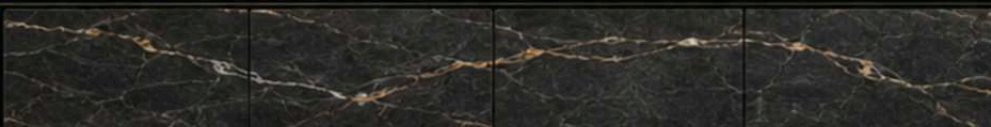

6. Color Matching

Selection of slabs with consistent color tone and controlled variation.

7. Vein Matching

Alignment of veins across slabs for seamless continuity.

DESIGN CONTINUITY

Ensures natural flow for seamless and cohesive spaces.

VISUAL HARMONY

Creates balance and symmetry for refined aesthetics.

PROJECT PLANNING

Supports accurate layout, budgeting, and installation.

PREMIUM SELECTION

Careful slab selection for superior quality and beauty.

ARCHITECTURAL PRESENTATION

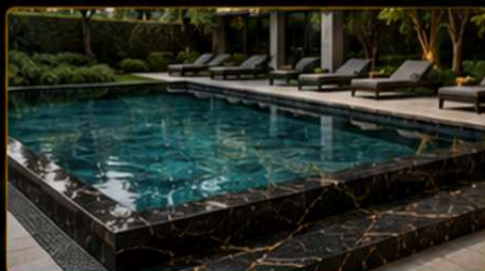

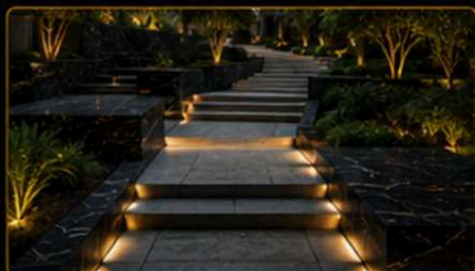

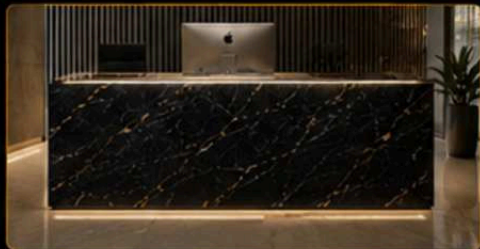

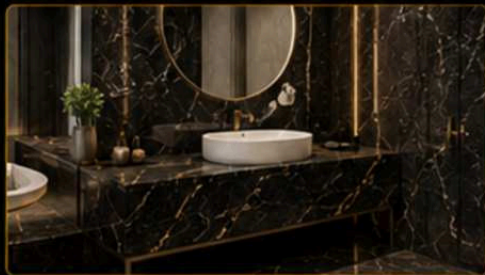

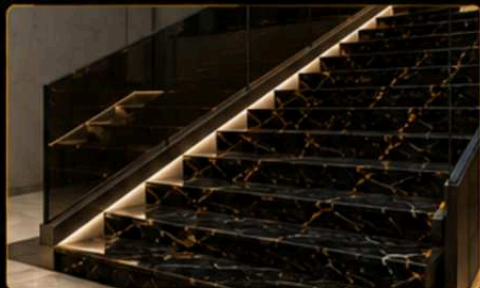

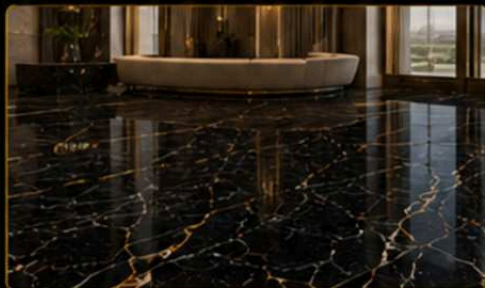

Elevates the final result with impact and elegance.

APPLICATIONS

Black Rose Marble combines timeless elegance with exceptional performance, making it the ideal choice for a wide range of architectural and design applications.

- ◆ Exterior Façades
- ◆ Interior Wall Cladding
- ◆ Flooring
- ◆ Staircases
- ◆ Bathrooms
- ◆ Kitchens
- ◆ Countertops
- ◆ Reception Desks
- ◆ Fireplaces
- ◆ Hotels
- ◆ Commercial Spaces
- ◆ Landscape Architecture
- ◆ Swimming Pool Areas
- ◆ Backlit Decorative Panels

Suitable for architectural, interior, landscape, and decorative projects across residential, hospitality, and commercial sectors.

SELECTION & QUALITY CONTROL

At FORTUMES, every slab undergoes a rigorous selection and quality-control process to ensure that only material meeting the highest standards is approved for delivery.

- ✓ Color Category Selection
- ✓ Vein and Pattern Approval
- ✓ Thickness Control
- ✓ Size and Geometry Control
- ✓ Polishing Quality Inspection
- ✓ Sequential Slab Selection
- ✓ Pre-Packing Inspection
- ✓ Pre-Loading Photo and Video Report

SLAB INSPECTION

SURFACE & PATTERN CHECK

THICKNESS CONTROL

SIZE & GEOMETRY CONTROL

POLISHING QUALITY INSPECTION

PRE-LOADING PHOTO AND VIDEO REPORT

Each order can be reviewed and approved against agreed criteria for color range, pattern consistency, dimensional tolerances, and final finish before shipment.

PACKAGING & LOGISTICS

PACKAGING:

- ♦ Wooden Bundles for Blocks
- ♦ Wooden A-Frames for Slabs
- ♦ Reinforced Wooden Crates for Tiles
- ♦ Protective Film
- ♦ Corner Protection
- ♦ Package Marking

How to Request a Quotation

To provide you with an accurate and timely quotation, please share the following details:

BUYER SHOULD SPECIFY:

- ✓ Stone Name
- ✓ Reference Code
- ✓ Required Color or Grade
- ✓ Product Format
- ✓ Dimensions
- ✓ Thickness
- ✓ Surface Finish
- ✓ Quantity
- ✓ Application
- ✓ Destination
- ✓ Sample Requirement
- ✓ Technical Drawings for Cut-to-Size
